

Welcome to Radical Money Program.com. I'm Colin Tipping and I must tell you that I'm very excited about this program. I don't know about you, but there was a time when I just couldn't get beyond a certain level of income no matter how hard I worked. But not now. I smashed through the invisible barrier in my own subconscious mind that kept me stuck at a low level of income --- and now I work a lot less for a good deal more money. If you're frustrated like I was and want to break free from your current income limitation, you're gonna love this program.

This is not a get rich quick scheme I hasten to add. But how does quadrupling your income over a period of two years sound? That's what the program is designed to do. More if your starting point is very low. That's why we call it the 'times four' money program. Imagine how it would change your life-style. What dreams might you be able to fulfill? You can be travelling first class, taking a luxury cruise, starting a new business, eating out in high class restaurants, doing good works, supporting family members and so on.

As Stuart Wilde said, the trick to money is having some. And, there's nothing wrong with having a lot of it because it gives you the freedom to do exactly what you want to do.

Even if you don't have a job or income right now, it's still gonna work because your revised consciousness around money will attract a new position where that kind of money is possible. That's how the law of attraction works. And if you're already a millionaire, what's wrong with having four million?

You can read below how it actually works. You'll see that there's a perfectly sound logic to it. It does not at all woo-woo -- neither is it mere wishful thinking. How the subconscious mind works in common knowledge, so we've just put that knowledge to good use and have made a piece of software that trains the mind to gradually and progressively accept a higher level of income. You'll see. It does take some time and effort to make it work, but it can be a lot of fun too.

We're making it available to you either as a downloadable package in digital form, or as a physical product - the executive version, as we call it. The digital product is obviously cheaper and contains everything the executive version does, but some people are just more tactile and like to touch and feel something like this. And it looks good too. Something nice to hold. There's a lot there as you can see in the picture below.

There's a lot of free stuff closely associated with this as well, like the program that helps you get back the wealth you temporarily lost due to the banking crisis and the Creating a New Job Program. Both are free. Also, forgiveness worksheets to forgive the people who taught you that money doesn't grow on trees and other myths about money.

So, scroll down now, see how it all works and then make your choice - the downloadable version or the executive version. Either way, you'll be on your way to quadrupling your income.

Good luck - and know that you are abundantly supplied at all times.
